

Nurture Committee report

WPUMC Church Council May 20, 2007

Spring has sprung! We are surrounded by God's yearly reminders of His power to bring rebirth and growth!

Higher Education Committee (Melissa Edwards and Cynthia Rohm)

The Higher Ed committee is planning to have a reception June 3rd for young adults/college/career age to welcome them back and get them re-integrated into White Plains. We also want to make them aware of the Sunday school class for their age group at 11 am.

Information Technology Committee (Mark Edwards)

The IT Committee has been meeting monthly. We have several new members this year who are actively involved and contributing great ideas. Recent accomplishments include podcasting of the sermons, rss feed of the newsletter, complete redesign of the Youth web site, new hosting service for our photo galleries, upgrades to the anti-virus software for the church computers, reconfiguration of the 5 wireless routers on the church campus, in addition to our on-going web site content updates. We have plenty of other projects on our todo list and look forward to continuing to use technology to support the ministries of White Plains.

Men's Ministry (Rick Russell)

Remember the 2007 Men's Retreat will be Oct 5th - 7th at Camp Oakhill. Put it on your calendars now!

Scholarship Committee (Vicki Cudd)

Donations to the scholarship fund allowed the awarding of four scholarships this year. The recipients were announced in church on May 20 as part of this year's Senior Recognition Sunday. Past scholarship winners were also recognized. This year's well-deserving recipients are Tom Adams, Catherine Pannill, Chip Reap and Amanda Russell.

In His Service,

Pat LiVecchi
